**BUILDING...**

**Relationships. Value. Solutions.**

Buckingham Construction Corporation was established in 1984 and provides third party construction services to a wide array of contracting markets. We are a relationship builder with expertise in multiple construction disciplines including multi-family, student housing, commercial, retail, medical/dental, industrial, restaurant and specialty construction. In addition, we have expertise in commercial renovations and historic redevelopment. For over 20 years, Buckingham has been an industry leader and our innovative and creative portfolio of completed projects include urban and suburban multi-family residential communities, mixed-use retail, office developments, historic renovations, section 42 apartments, and dramatic student housing developments. Buckingham is known for its high level of integrity, value and the client focused services we deliver to our clients. Our corporate longevity and financial strength assure clients that Buckingham will be here to warrant your project for years to come.

## LAYING THE FOUNDATION FOR SUCCESS

Before a single plan is drawn or a dollar is allocated, Buckingham provides pre-project consulting services to maximize your investment. With initial project assessments, comprehensive design, lifecycle cost and other planning elements, we build value into your project. Our proactive management, focus on quality and attention to detail has earned the respect and repeat business of satisfied clients across the country.

## DESIGN / BUILD

A core competency of Buckingham Construction Corporation is our extensive design/build project experience. As designer and builder, Buckingham can expedite a project, thus reducing time between project concept and completion. With our proactive approach to design planning and construction cost control, adherence to tight budgets and timely project completion, Buckingham will get your project off the ground in the most efficient and effective manner.

Specialty construction is another strong point for Buckingham Construction Corporation. Examples include Family Entertainment and Bowling Centers, airport hangar buildings, branch bank construction, and auto dealerships. Please contact us to discuss your construction requirements and how Buckingham can assist you with your next project.

Buckingham's LEED AP in-house personnel are uniquely positioned to guide you through the complexities of green building design. From energy efficiency to low-impact construction, we reduce your carbon footprint without increasing your cost.

## YOUR SUCCESS IS OUR SUCCESS

A successful project requires far more than just bricks and mortar. True success is achieved by exceeding client expectations in the quality of craftsmanship, attention to detail, and communication before, during and after each construction project. Timeliness of execution and the delivery of the project within budget parameters is a given for any project to be successful. Buckingham goes beyond the ordinary and is a relationship builder that recognizes the power of sustained success that is demonstrated by our repeat clients and referral based growth.

## COMPREHENSIVE CONSTRUCTION SERVICES

Whether the need is for an innovative office or retail center, a cutting edge medical or dental facility, an industrial or manufacturing facility, or any unique project you can dream of, we build your custom project to the highest of standards. Our diverse portfolio also includes everything from specialty entertainment venues to airport hangars. And in addition to our conventional construction expertise, we are a licensed Butler Builder and we can design and construct a customized pre-engineered solution to best fit your requirements and your budget parameters.

**INSPIRED ENVIRONMENTS. SUPERIOR VALUE.**
